# **SAFETY DATA SHEET**

200AX Stencil Cleaner

Safety Data Sheet according to GB/T 16483-2008 and GB/T 17519-2013

Section 1. Chemi	cal product and company identification
GHS product identifier	: 200AX Stencil Cleaner
GHS reference number	: GHS023
Product type	: Liquid.
Identified uses Not applicable.	
Supplier's details	<ul> <li>International: AIM 9100 Henri Bourassa East Montreal, QC H1E 2S4 (514) 494-2000</li> <li>In China: AIM Solder (CHANGXING) Company Limited No.1208-D Chenwang Rd., Taihu St. Changxing County, Huzhou, Zhejiang 0572-6683800</li> <li>In Malaysia: AIM Solder (Malaysia) No. 2A, Jalan Industri Seri Juru, Taman Industri Seri Juru, 14000 Bukit Mertajam, Pulau Pinang, Malaysia +6012 800 1936</li> </ul>
Emergency telephone number (with hours of operation)	: INFOTRAC North America: (800) 535-5053 International: (352) 323-3500
Section 2. Hazard	Is identification
Classification of the substa	nce or mixture according to GB 13690-2009 and GB 30000-2013
Classification of the substance or mixture	: FLAMMABLE LIQUIDS - Category 4 ACUTE TOXICITY (oral) - Category 5 ACUTE TOXICITY (dermal) - Category 5 SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A
GHS label elements	
Hazard pictograms	
Signal word	: Warning
Hazard statements	<ul> <li>Combustible liquid.</li> <li>May be harmful if swallowed or in contact with skin.</li> <li>Causes serious eye irritation.</li> </ul>
Precautionary statements	
Prevention	: Wear protective gloves, protective clothing and eye or face protection. Keep away from flames and hot surfaces. No smoking. Wash thoroughly after handling.

Date of issue/Date of revision	: 6/18/2021	Date of previous issue	: 5/31/2021	Version : 0.16 1/10
--------------------------------	-------------	------------------------	-------------	---------------------

### Section 2. Hazards identification

Response	SWALLOWED: Call a POISON CENTER or doctor if you feel u N: Call a POISON CENTER or doctor if you feel unwell. IF IN tiously with water for several minutes. Remove contact lenses by to do. Continue rinsing. If eye irritation persists: Get medica ention.	EYES: Rinse , if present and
Storage	re in a well-ventilated place. Keep cool.	
Disposal	pose of contents and container in accordance with all local, re l international regulations.	gional, national
Other hazards which do not result in classification	ie known.	

## Section 3. Composition/information on ingredients

Substance/mixture	: Substance
Other means of identification	: Not applicable Not applicable

#### **CAS number/other identifiers**

CAS number	: Not available.
EC number	: Not available.

Ingredient name	%	CAS number
2-(2-butoxyethoxy)ethanol	99.99 - 100	112-34-5

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention if adverse health effects persist or are severe. If necessary, call a poison center or physician. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Ingestion	: Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

# Section 4. First aid measures

Most important symptoms/e	icute and delayed		
Potential acute health effect			
Eye contact	uses serious eye irritation.		
Inhalation	known significant effects or critical hazards.		
Skin contact	y be harmful in contact with skin.		
Ingestion	y be harmful if swallowed.		
Over-exposure signs/symptoms			
Eye contact	rerse symptoms may include the following: n or irritation ering ness		
Inhalation	specific data.		
Skin contact	specific data.		
Ingestion	specific data.		
Indication of immediate medical attention and special treatment needed, if necessary			
Notes to physician	at symptomatically. Contact poison treatment spe ntities have been ingested or inhaled.	cialist immediately if large	
Specific treatments	specific treatment.		
Protection of first-aiders	action shall be taken involving any personal risk o y be dangerous to the person providing aid to give sh contaminated clothing thoroughly with water be /es.	e mouth-to-mouth resuscitation.	

# Section 5. Fire-fighting measures

•	
Extinguishing media	
Suitable extinguishing media	: Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.
Unsuitable extinguishing media	: Do not use water jet.
Specific hazards arising from the chemical	: Combustible liquid. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Special protective equipment for fire-fighters	<ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</li> </ul>

# Section 6. Accidental release measures

Personal precautions, protect	tive equipment and emergency procedures
For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	ntainment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

# Section 7. Handling and storage

Precautions for safe handling		
Protective measures	:	Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

# Section 8. Exposure controls/personal protection

#### Control parameters

#### **Occupational exposure limits**

Ingredient name		Exposure limits
2-(2-butoxyethoxy)ethanol		ACGIH TLV (United States, 3/2020). TWA: 10 ppm 8 hours. Form: Inhalable fraction and vapor
Appropriate engineering controls	ventilation or othe contaminants bel also need to keep	equate ventilation. Use process enclosures, local exhaust er engineering controls to keep worker exposure to airborne ow any recommended or statutory limits. The engineering controls o gas, vapor or dust concentrations below any lower explosive sion-proof ventilation equipment.
Environmental exposure controls	they comply with cases, fume scru	entilation or work process equipment should be checked to ensure the requirements of environmental protection legislation. In some bbers, filters or engineering modifications to the process necessary to reduce emissions to acceptable levels.
ndividual protection measu	Ires	
Hygiene measures	: Wash hands, fore eating, smoking a Appropriate techr Wash contaminat	earms and face thoroughly after handling chemical products, before and using the lavatory and at the end of the working period. hiques should be used to remove potentially contaminated clothing. ted clothing before reusing. Ensure that eyewash stations and re close to the workstation location.
Eye/face protection	assessment indic gases or dusts. I	omplying with an approved standard should be used when a risk ates this is necessary to avoid exposure to liquid splashes, mists, f contact is possible, the following protection should be worn, sment indicates a higher degree of protection: chemical splash
Skin protection		
Hand protection	be worn at all time this is necessary. check during use should be noted t different for differ	nt, impervious gloves complying with an approved standard should es when handling chemical products if a risk assessment indicates Considering the parameters specified by the glove manufacturer, that the gloves are still retaining their protective properties. It hat the time to breakthrough for any glove material may be ent glove manufacturers. In the case of mixtures, consisting of es, the protection time of the gloves cannot be accurately
Body protection		ve equipment for the body should be selected based on the task and the risks involved and should be approved by a specialist nis product.
Other skin protection	selected based of	rear and any additional skin protection measures should be n the task being performed and the risks involved and should be ecialist before handling this product.
Respiratory protection	appropriate stand	ard and potential for exposure, select a respirator that meets the lard or certification. Respirators must be used according to a tion program to ensure proper fitting, training, and other important

# Section 9. Physical and chemical properties

<u>Appearance</u>	
Physical state	: Liquid.
Color	: Clear Colorless. [Light]
Odor	: Characteristic.
Odor threshold	: Not available.
рН	: Not available.

Date of issue/Date of revision

# Section 9. Physical and chemical properties

-		
Melting point	1	Not available.
Boiling point	:	Not available.
Flash point	:	Open cup: 78°C (172.4°F)
Evaporation rate	1	Not available.
Flammability (solid, gas)	:	Flammable in the presence of the following materials or conditions: open flames, sparks and static discharge.
Lower and upper explosive (flammable) limits	:	Upper: 9.4%
Vapor pressure	1	Not available.
Vapor density	1	Not available.
Relative density	1	Not available.
Solubility	:	Easily soluble in the following materials: cold water.
Partition coefficient: n- octanol/water	:	Not applicable.
Auto-ignition temperature	:	Not available.
Decomposition temperature	:	Not available.
Viscosity	1	Not available.

Section 10. Stability and reactivity
--------------------------------------

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition.
Incompatible materials	: Reactive or incompatible with the following materials: oxidizing materials
Hazardous decomposition products	<ul> <li>Under normal conditions of storage and use, hazardous decomposition products should not be produced.</li> </ul>

## Section 11. Toxicological information

#### Information on toxicological effects

Product/ingredient name	Result	Species	Dose	Exposure
2-(2-butoxyethoxy)ethanol	LD50 Dermal	Rabbit	2700 mg/kg	-
	LD50 Dermal	Rabbit	4120 mg/kg	-
	LD50 Oral	Mouse	2400 mg/kg	-
	LD50 Oral	Mouse	2400 mg/kg	-
	LD50 Oral	Rat	4500 mg/kg	-
	LD50 Oral	Rat	5660 mg/kg	-

#### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
2-(2-butoxyethoxy)ethanol	Eyes - Moderate irritant	Rabbit	-	24 hours 20 mg	-
	Eyes - Severe irritant	Rabbit	-	20 mg	-

#### **Sensitization**

Date of issue/Date of revision

## Section 11. Toxicological information

No known significant effects or critical hazards.

#### **Mutagenicity**

No known significant effects or critical hazards.

#### **Carcinogenicity**

No known significant effects or critical hazards.

#### Conclusion/Summary

: Can cause CNS depression. May cause corneal damage and conjunctivitis Overexposure may cause serious liver disorders.

#### **Reproductive toxicity**

No known significant effects or critical hazards.

#### **Teratogenicity**

No known significant effects or critical hazards.

Specific target organ toxicity (single exposure)

No known significant effects or critical hazards.

#### Specific target organ toxicity (repeated exposure)

No known significant effects or critical hazards.

#### Aspiration hazard

No known significant effects or critical hazards.

Information on the likely	: Routes of entry not anticipated: Dermal.
routes of exposure	

### Potential acute health effects

Eye contact	: Causes serious eye irritation.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: May be harmful in contact with skin.
Ingestion	: May be harmful if swallowed.

#### Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

#### Delayed and immediate effects and also chronic effects from short and long term exposure

<u>Short term exposure</u>	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Long term exposure	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Potential chronic health eff	ects
Not available.	
General	: No known significant effects or critical hazards.

Date of issue/Date of revision

: 6/18/2021 Date of pre

### Section 11. Toxicological information

(	Carcinogenicity	1	No known significant effects or critical hazards.
	Nutagenicity	1	No known significant effects or critical hazards.
	<b>Feratogenicity</b>	1	No known significant effects or critical hazards.
	Developmental effects	1	No known significant effects or critical hazards.
	Fertility effects	1	No known significant effects or critical hazards.

#### Numerical measures of toxicity

#### Acute toxicity estimates

Route	ATE value
Oral	4500 mg/kg
Dermal	2700 mg/kg

#### Other information

 To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein.
 Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

### Section 12. Ecological information

#### **Toxicity**

Product/ingredient name	Result	Species	Exposure
2-(2-butoxyethoxy)ethanol	Acute LC50 1300000 µg/l Fresh water	Fish - Lepomis macrochirus	96 hours

#### Persistence/degradability

Not available.

#### **Bioaccumulative potential**

Product/ingredient name	LogPow	BCF	Potential
2-(2-butoxyethoxy)ethanol	1	-	low

#### **Mobility in soil**

Soil/water partition: Not available.coefficient (Koc)

#### **Other adverse effects** : No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues

### Section 13. Disposal considerations

may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

	China	UN	IMDG	IATA
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-	-
Transport hazard class(es)	-	-	-	-
Packing group	-	-	-	-
Environmental hazards	No.	No.	No.	No.
Additional information	-	-	-	-

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

### Section 15. Regulatory information

- Safety, health and environmental regulations
- : No known specific national and/or regional regulations applicable to this product (including its ingredients).
- specific for the product China inventory (IECSC)
- : All components are listed or exempted.

List of Goods banned for Importing

None of the components are listed.

List of Goods banned for Exporting

None of the components are listed.

List of Toxic Chemicals Severely Restricted for Importing & Exporting by China

None of the components are listed.

International regulations

**Montreal Protocol** 

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

**Rotterdam Convention on Prior Informed Consent (PIC)** 

Not listed.

**UNECE Aarhus Protocol on POPs and Heavy Metals** Not listed.

International lists

Date of issue/Date of revision

## Section 15. Regulatory information

National inventory	
Australia	: All components are listed or exempted.
Canada	: All components are listed or exempted.
Europe	: All components are listed or exempted.
Japan	: Japan inventory (CSCL): All components are listed or exempted. Japan inventory (ISHL): All components are listed or exempted.
Malaysia	: All components are listed or exempted.
New Zealand	: All components are listed or exempted.
Philippines	: All components are listed or exempted.
Republic of Korea	: All components are listed or exempted.
Taiwan	: All components are listed or exempted.
United States	: Not determined.
