# Section 2. Hazards identification

# Other hazards which do not : None known. result in classification

# Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture        |
|-------------------|------------------|
| Other means of    | : Not available. |
| identification    |                  |

### **CAS number/other identifiers**

| CAS number | : Not applicable. |
|------------|-------------------|
| EC number  | : Mixture.        |

| Ingredient name | %        | CAS number |
|-----------------|----------|------------|
| silver          | 0.1 - 10 | 7440-22-4  |
| copper          | 0.1 - 10 | 7440-50-8  |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

#### **Description of necessary first aid measures**

| Eye contact  | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.   |
|--------------|--|
| Inhalation   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>If not breathing, if breathing is irregular or if respiratory arrest occurs, provide<br>artificial respiration or oxygen by trained personnel. It may be dangerous to the<br>person providing aid to give mouth-to-mouth resuscitation. Get medical attention if<br>adverse health effects persist or are severe. If unconscious, place in recovery<br>position and get medical attention immediately. Maintain an open airway. Loosen<br>tight clothing such as a collar, tie, belt or waistband.   |
| Skin contact | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.  |
| Ingestion    | : Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

Most important symptoms/effects, acute and delayed

| Potential acute health eff     | ects  |                |      |
|--------------------------------|---|----------------|------|
| Eye contact                    | : No known significant effects or critical hazards. |                |      |
| Inhalation                     | : No known significant effects or critical hazards. |                |      |
| Skin contact                   | : No known significant effects or critical hazards. |                |      |
| Ingestion                      | : No known significant effects or critical hazards. |                |      |
| <u>Over-exposure signs/syn</u> | nptoms  |                |      |
| Eye contact                    | : No specific data.                                 |                |      |
| Date of issue/Date of revision | : 6/18/2021 Date of previous issue : 5/31/2021      | Version : 0.14 | 2/10 |

# Section 4. First aid measures

| Inhalation   | : No specific data. |
|--------------|---------------------|
| Skin contact | : No specific data. |
| Ingestion    | : No specific data. |
|              |                     |

### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician         | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>                          |
|----------------------------|--|
| Specific treatments        | : No specific treatment.   |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |

### See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media                            |  |
|--|--|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.  |
| Unsuitable extinguishing media                 | : None known.  |
| Specific hazards arising from the chemical     | <ul> <li>This material is very toxic to aquatic life with long lasting effects. Fire water<br/>contaminated with this material must be contained and prevented from being<br/>discharged to any waterway, sewer or drain.</li> </ul> |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials: metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.  |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>                                      |

### Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

|   | - |   |
|---|---|---|
| For non-emergency<br>personnel                        | : | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Provide adequate<br>ventilation. Wear appropriate respirator when ventilation is inadequate. Put on<br>appropriate personal protective equipment. |
| For emergency responders                              | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions                             | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways,<br>drains and sewers. Inform the relevant authorities if the product has caused<br>environmental pollution (sewers, waterways, soil or air). Water polluting material.<br>May be harmful to the environment if released in large quantities. Collect spillage.                                 |
| Methods and materials for containment and cleaning up |   |   |
| Small spill   | 1 | Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal   |

contractor.

## Section 6. Accidental release measures

### Large spill

: Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

# Section 7. Handling and storage

#### Precautions for safe handling : Put on appropriate personal protective equipment (see Section 8). Do not ingest. Protective measures Avoid contact with eyes, skin and clothing. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. Eating, drinking and smoking should be prohibited in areas where this material is Advice on general ŝ, handled, stored and processed. Workers should wash hands and face before occupational hygiene eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. Store in accordance with local regulations. Store in original container protected Conditions for safe storage, ÷. including any from direct sunlight in a dry, cool and well-ventilated area, away from incompatible incompatibilities materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

# Section 8. Exposure controls/personal protection

### **Control parameters**

### **Occupational exposure limits**

| Ingredient name | Exposure limits   |  |  |
|-----------------|---|--|--|
| silver          | ACGIH TLV (United States, 3/2020).<br>TWA: 0.1 mg/m <sup>3</sup> 8 hours. Form: Dust and<br>fumes |  |  |
| copper          | GBZ 2.1 (China, 8/2019).<br>PC-TWA: 1 mg/m³, (as Cu) 8 hours. Form:<br>dust                       |  |  |

| Appropriate engineering<br>controls<br>Environmental exposure<br>controls | conta<br>: Emiss<br>they o<br>cases | general ventilation should be sufficient to control worker exposure to airborne<br>minants.<br>sions from ventilation or work process equipment should be checked to ensure<br>comply with the requirements of environmental protection legislation. In some<br>s, fume scrubbers, filters or engineering modifications to the process<br>ment will be necessary to reduce emissions to acceptable levels. |
|---|-------------------------------------|--|
| Individual protection measu   | <u>IS</u>                           |  |
| Hygiene measures  | eatino<br>Appro<br>Wash             | h hands, forearms and face thoroughly after handling chemical products, before<br>g, smoking and using the lavatory and at the end of the working period.<br>opriate techniques should be used to remove potentially contaminated clothing.<br>In contaminated clothing before reusing. Ensure that eyewash stations and<br>y showers are close to the workstation location.                               |
| Eye/face protection   | asses<br>gases<br>unles             | y eyewear complying with an approved standard should be used when a risk<br>sement indicates this is necessary to avoid exposure to liquid splashes, mists,<br>s or dusts. If contact is possible, the following protection should be worn,<br>s the assessment indicates a higher degree of protection: safety glasses with<br>shields.   |

### Skin protection

Date of issue/Date of revision

# Section 8. Exposure controls/personal protection

| Hand protection        | : Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |
|------------------------|---|
| Body protection        | <ul> <li>Personal protective equipment for the body should be selected based on the task<br/>being performed and the risks involved and should be approved by a specialist<br/>before handling this product.</li> </ul>   |
| Other skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>   |
| Respiratory protection | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |

# Section 9. Physical and chemical properties

| <u>Appearance</u>                            |   |  |
|--|---|--|
| Physical state                               | : Solid. [Cored Wire]   |  |
| Color  | : Silver-gray   |  |
| Odor   | : Odorless.   |  |
| Odor threshold                               | : Not available.  |  |
| рН   | : Not available.  |  |
| Melting point                                | : Not available.  |  |
| Boiling point                                | : Not available.  |  |
| Flash point                                  | : Not applicable.   |  |
| Evaporation rate                             | : Not available.  |  |
| Flammability (solid, gas)                    | : Slightly flammable in the presence of the following materials or conditions: open flames, sparks and static discharge.<br>Metallic part of product is nonflammable. The organic part may be flammable if exposed to direct flame. |  |
| Lower and upper explosive (flammable) limits | : Not applicable.   |  |
| Vapor pressure                               | : Not available.  |  |
| Vapor density                                | : Not applicable.   |  |
| Relative density                             | : Not available.  |  |
| Solubility                                   | : Insoluble in the following materials: cold water.   |  |
| Partition coefficient: n-<br>octanol/water   | : Not applicable.   |  |
| Auto-ignition temperature                    | : Not applicable.   |  |
| Decomposition temperature                    | : Not available.  |  |
| Viscosity                                    | : Not applicable.   |  |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.            |

Date of issue/Date of revision

# Section 10. Stability and reactivity

| Conditions to avoid    | : No specific data. |
|------------------------|---------------------|
| Incompatible materials | : No specific data. |

| Hazardous decomposition | : Under normal conditions of storage and use, hazardous decomposition products |
|-------------------------|--|
| products                | should not be produced.  |

### Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

No known significant effects or critical hazards.

#### Irritation/Corrosion

No known significant effects or critical hazards.

#### **Sensitization**

No known significant effects or critical hazards.

#### **Mutagenicity**

No known significant effects or critical hazards.

#### **Carcinogenicity**

No known significant effects or critical hazards.

#### Conclusion/Summary

Massive metal is not harmful. Overexposure to fumes may cause irritation to the respiratory tract, digestive system and to the eyes. Overexposure to tin oxide fumes may result in benigne penumoconiosis (stannosis). Repeated and prolonged contact may cause skin irritation, dermatitis and/or an allergic skin reaction (sensitization) in susceptible individuals..

#### **Reproductive toxicity**

No known significant effects or critical hazards.

#### **Teratogenicity**

No known significant effects or critical hazards.

#### Specific target organ toxicity (single exposure)

No known significant effects or critical hazards.

#### Specific target organ toxicity (repeated exposure)

No known significant effects or critical hazards.

#### **Aspiration hazard**

No known significant effects or critical hazards.

| Information on the likely<br>routes of exposure | : | Routes of entry not anticipated: Dermal.          |
|---|---|---|
| Potential acute health effects                  |   |   |
| Eye contact                                     | : | No known significant effects or critical hazards. |
| Inhalation                                      | : | No known significant effects or critical hazards. |
| Skin contact                                    | : | No known significant effects or critical hazards. |

Ingestion : No known significant effects or critical hazards.

# Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact<br>Inhalation      | : No specific<br>: No specific |                        |             |                |      |
