Section 2. Hazards identification

| OSHA/HCS status | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). |
|--|---|
| Classification of the substance or mixture | : SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1 |
| GHS label elements | |
| Hazard pictograms | |
| Signal word | : Warning |
| Hazard statements | : Causes serious eye irritation. Causes skin irritation. May cause an allergic skin reaction. |
| Precautionary statements | |
| Prevention | : Wear protective gloves. Wear eye or face protection. Avoid breathing dust. Wash hands thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. |

| Date of issue/Date of revision | : 3/4/2020 | Date of previous issue | : 3/3/2020 |
|--------------------------------|------------|------------------------|------------|
|--------------------------------|------------|------------------------|------------|

Section 2. Hazards identification

| Response | : IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. |
|----------------------------------|---|
| Storage | : Not applicable. |
| Disposal | : Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Hazards not otherwise classified | : None known. |

Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture |
|-------------------|------------------|
| Other means of | : Not available. |
| identification | |

| Ingredient name | % | CAS number |
|--|-----------|------------|
| Terpineol | ≥10 - ≤20 | 8000-41-7 |
| Amines, N-tallow alkyltrimethylenedi-, ethoxylated | ≥10 - ≤20 | 61790-85-0 |
| 2,2-bis(hydroxymethyl)propionic acid | ≤10 | 4767-03-7 |
| rosin | ≤10 | 8050-09-7 |
| bis(2-(2-methoxyethoxy)ethyl) ether | ≤4.9 | 143-24-8 |
| 1-aminopropan-2-ol | ≤5 | 78-96-6 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

| Description of necessary firs | <u>t aid measures</u> |
|-------------------------------|---|
| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention. |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. |
| Skin contact | : Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse. |
| Ingestion | : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

2/12

Section 4. First aid measures

| Most important symptoms/effects, acute and delayed | | | | |
|--|---|--|--|--|
| Potential acute health effe | <u>cts</u> | | | |
| Eye contact | : Causes serious eye irritation. | | | |
| Inhalation | : No known significant effects or critical hazards. | | | |
| Skin contact | : Causes skin irritation. May cause an allergic skin reaction. | | | |
| Ingestion | : No known significant effects or critical hazards. | | | |
| Over-exposure signs/symp | <u>otoms</u> | | | |
| Eye contact | : Adverse symptoms may include the following: pain or irritation watering redness | | | |
| Inhalation | : No specific data. | | | |
| Skin contact | : Adverse symptoms may include the following: irritation redness | | | |
| Ingestion | : No specific data. | | | |
| Indication of immediate medical attention and special treatment needed, if necessary | | | | |
| Notes to physician | In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. | | | |
| Specific treatments | : No specific treatment. | | | |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. | | | |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media: Use an extinguishing agent suitable for the surrounding fire.Suitable extinguishing media: None known.Specific hazards arising from the chemical Hazardous thermal decomposition products: No specific fire or explosion hazard.Special protective actions for fire-fighters: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable | J | <u> </u> |

Section 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures | | | |
|---|---|--|--|
| For non-emergency personnel | : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. | | |
| For emergency responders | Section 8 o | ed clothing is required to deal with the spillage, take note of any information in n suitable and unsuitable materials. See also the information in "For non- personnel". | |
| Environmental precautions | and sewers | rsal of spilled material and runoff and contact with soil, waterways, drains . Inform the relevant authorities if the product has caused environmental ewers, waterways, soil or air). | |
| Methods and materials for co | inment and | <u>l cleaning up</u> | |
| Small spill | filter will rec | iners from spill area. Avoid dust generation. Using a vacuum with HEPA luce dust dispersal. Place spilled material in a designated, labeled waste Dispose of via a licensed waste disposal contractor. | |
| Large spill | sewers, wa dry sweep. labeled was | iners from spill area. Approach release from upwind. Prevent entry into ter courses, basements or confined areas. Avoid dust generation. Do not Vacuum dust with equipment fitted with a HEPA filter and place in a closed, ste container. Dispose of via a licensed waste disposal contractor. Note: 1 for emergency contact information and Section 13 for waste disposal. | |

Section 7. Handling and storage

Precautions for safe handling

| Protective measures | : | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|---|--|
| Advice on general occupational hygiene | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

Section 8. Exposure controls/personal protection

<u>Control parameters</u> <u>Occupational exposure limits</u>

Section 8. Exposure controls/personal protection

| Ingredient name | | | Exposure limits | |
|---|----------------------|--|--|--|
| Terpineol Amines, N-tallow alkyltrimethylenedi-, ethoxylated 2,2-bis(hydroxymethyl)propionic acid rosin bis(2-(2-methoxyethoxy)ethyl) ether 1-aminopropan-2-ol | | | None. None. None. ACGIH TLV (United States, 3/2019). Skin sensitizer. Inhalation sensitizer. None. None. | |
| Appropriate engineering controls | | ood general ventilation should be suffic ontaminants. | cient to control worker exposure to airborne | |
| Environmental exposure controls | th ca | ey comply with the requirements of env | ess equipment should be checked to ensure vironmental protection legislation. In some ering modifications to the process equipment acceptable levels. | |
| Individual protection meas | <u>ures</u> | | | |
| Hygiene measures | ea Aµ Co | ating, smoking and using the lavatory a ppropriate techniques should be used t ontaminated work clothing should not b | to remove potentially contaminated clothing. De allowed out of the workplace. Wash Insure that eyewash stations and safety | |
| Eye/face protection | as ga | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles. | | |
| Skin protection | | | | |
| Hand protection | wo ne du nc | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. | | |
| Body protection | pe | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. | | |
| Other skin protection | ba | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. | | |
| Respiratory protection | ap re | Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. | | |

Section 9. Physical and chemical properties

| Appearance | | | | | |
|--------------------------------|--------------|----------------------------|------------|----------------|------|
| Physical state | : Solid. [Pa | ste] | | | |
| Color | : Amber. | | | | |
| Odor | : Terpene [| Slight] | | | |
| Odor threshold | : Not availa | ible. | | | |
| рН | : Not availa | ıble. | | | |
| Melting point | : Not availa | ible. | | | |
| Boiling point | : Not availa | ible. | | | |
| Flash point | : [Product | does not sustain combustio | on.] | | |
| Date of issue/Date of revision | : 3/4/2020 | Date of previous issue | : 3/3/2020 | Version : 0.09 | 5/12 |

Section 9. Physical and chemical properties

| Evaporation rate | : Not available. | |
|--|--|--|
| Flammability (solid, gas) | : Not available. | |
| Lower and upper explosive (flammable) limits | : Not available. | |
| Vapor pressure | : Not available. | |
| Vapor density | : Not available. | |
| Relative density | : Not available. | |
| Solubility | : Easily soluble in the following materials: hot water. Soluble in the following materials: cold water. | |
| Solubility in water | : Not available. | |
| Partition coefficient: n- octanol/water | : Not available. | |
| Auto-ignition temperature | : Not available. | |
| Decomposition temperature | : Not available. | |
| Viscosity | : Not available | |
| Flow time (ISO 2431) | : Not available. | |
| | | |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : No specific data. |
| Incompatible materials | : No specific data. |
| Hazardous decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|--|-------------|---------|-------------|----------|
| Terpineol | LD50 Oral | Rat | 4300 mg/kg | - |
| Amines, N-tallow alkyltrimethylenedi-, ethoxylated | LD50 Oral | Rat | >500 mg/kg | - |
| rosin | LD50 Oral | Rat | 7600 mg/kg | - |
| bis(2-(2-methoxyethoxy)ethyl) ether | LD50 Dermal | Rat | >6900 mg/kg | - |
| | LD50 Oral | Rat | 3850 mg/kg | - |
| 1-aminopropan-2-ol | LD50 Oral | Rat | 1715 mg/kg | - |
| | LD50 Oral | Rat | 1715 mg/kg | - |

Irritation/Corrosion

Section 11. Toxicological information

| Product/ingredient name | Result | Species | Score | Exposure | Observation |
|--|--------------------------|------------------------------------|-------|--------------------|-------------|
| Terpineol | Eyes - Mild irritant | Mammal - species unspecified | - | 12.5 % | - |
| | Skin - Moderate irritant | Rabbit | - | 24 hours 500 mg | - |
| bis(2-(2-methoxyethoxy)ethyl) ether | Eyes - Mild irritant | Rabbit | - | 500 mg | - |
| 1-aminopropan-2-ol | Eyes - Severe irritant | Rabbit | - | 24 hours 250 ug | - |
| | Eyes - Severe irritant | Rabbit | - | 970 ug | - |
| | Skin - Mild irritant | Rabbit | - | 24 hours 500 | - |
| | Skin - Moderate irritant | Rabbit | - | mg 485 mg | - |

Sensitization

Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Conclusion/Summary

: Repeated and prolonged contact may cause an allergic skin reaction (sensitization) in susceptible individuals. None have been reported.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

| Name | Category | Route of exposure | Target organs |
|--------------------------------------|------------|-------------------|------------------------------|
| 2,2-bis(hydroxymethyl)propionic acid | Category 3 | Not applicable. | Respiratory tract irritation |

Specific target organ toxicity (repeated exposure) Not available.

Aspiration hazard

Not available.

| Information on the likely | : Routes of entry not anticipated: Dermal. |
|---------------------------|--|
| routes of exposure | |

Potential acute health effects

| Eye contact | : Causes serious eye irritation. |
|--------------|--|
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : Causes skin irritation. May cause an allergic skin reaction. |
| Ingestion | : No known significant effects or critical hazards. |

Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact | : Adverse symptoms may include the following: pain or irritation watering redness |
|-------------|--|
| Inhalation | : No specific data. |

| Date of issue/Date of revision | : 3/4/2020 |
|--------------------------------|------------|
|--------------------------------|------------|

Section 11. Toxicological information

| Skin contact | : Adverse symptoms may include the following: | |
|------------------------------|---|--|
| | irritation | |
| | redness | |
| Ingestion | : No specific data. | |
| Delayed and immediate effe | cts and also chronic effects from short and long term exposure | |
| <u>Short term exposure</u> | | |
| Potential immediate effects | : Not available. | |
| Potential delayed effects | : Not available. | |
| <u>Long term exposure</u> | | |
| Potential immediate effects | : Not available. | |
| Potential delayed effects | : Not available. | |
| Potential chronic health eff | ects | |
| Not available. | | |
| General | : Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. | |
| Carcinogenicity | : No known significant effects or critical hazards. | |
| Mutagenicity | No known significant effects or critical hazards. | |
| Teratogenicity | : No known significant effects or critical hazards. | |
| Developmental effects | : No known significant effects or critical hazards. | |
| Fertility effects | : No known significant effects or critical hazards. | |
| | | |

Numerical measures of toxicity

Acute toxicity estimates

| Route | ATE value |
|--------|----------------|
| Oral | 2037 mg/kg |
| Dermal | 14648.62 mg/kg |

| ether | | | |
| 1-aminopropan-2-ol | -0.96 | 0.11 | low |

Mobility in soil

| Soil/water partition | : Not available. |
|----------------------|------------------|
| coefficient (Koc) | |

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

| Disposal methods : | The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |
|--------------------|--|
