

CX18

Lead-Free Solder Wire

THE OPERATOR FRIENDLY SOLDER WIRE

NEW

KEY FEATURES

- Fast flowing
- Low odor/fume
- Extends solder tip life
- Clear, minimal residue
- ROLO per IPC J-STD-004
- REACH and RoHS compliant
- Extends solder tip life

AVAILABILITY

CX18 is available in multiple lead-free alloys.

Solder plus Support

CX18 no clean flux core wire solder was designed to offer excellent soldering results with all alloys and on all surface finishes. Engineered for high operator satisfaction, CX18 is a low odor/smoke formula which promotes thermal transfer and fast wetting without the need for additional flux. CX18 post solder residues are minimal, clear and pass IPC J-STD-004A and J-STD-004B SIR and corrosion requirements.

➤ **CX18 Engineered for Operator Satisfaction.**
